	- 2 days trainings for 12 persons		
2	<p><b>INTRAVENOUS ARM</b></p> <p><i>Peripheral Intravenous (IV) Catheterization Arm</i></p>	1 unit	
			
	<p>-This IV arm features four veins to practice performing peripheral IV insertions. Each arm comes with two 1000 ml bags to use for simulating an IV drip and blood flow through the arm. After inserting the catheter correctly, students experience a realistic flashback for placement confirmation. This model features two options: black tubing to help students see the vascular anatomy before inserting a needle and clear tubing to allow them to locate vessels solely by palpation. Replace the outer layer of our proprietary in less than five minutes, extending the life of the model. Tubing is also replaceable.</p> <p>*Note: Some components of this product may contain latex.</p>		
3		1 unit	
	<p><b>CPR Family Pack</b></p> <p>The latest package of CPR manikins designed to stretch your training dollar. The CPR Family Pack is a combination of two Economy Adult Manikins, one Child, and one Baby manikin. The easy-to-install airways eliminate the need to clean the units between students. The manikins can be surface cleaned after each session. The foam filling offers resistance for the practice of chest compression and the head tilt/chin lift procedure opens the airway for ventilation. The package includes a carry bag, 100 Adult Face Shield Lung Systems, 100 Child Face Shield Lung Systems, and 100 Baby Face Shield Lung Systems.</p> <p>Size 21" x 15" x 19".</p> <p>Ship weight 26 lbs.</p>		
4	<p><b>DEBRIEFING EQUIPMENT</b></p> <p>2 x Debriefing Equipment (3 HD cameras, 1 NVR, 1 TB HDD, 1 monitor, 1 keyboard and mouse)</p>	1 lot	
5	<p><b>Defibrillator with AED first aid wall mount cabinet with alarm, customized logo print and instruction guide</b></p>	1 unit	

### Our Vision

A leading university in the Philippines recognized for its proactive contribution to Sustainable Development through equitable and inclusive programs and services by 2030.

### Our Mission

To develop competitive graduates and empowered community members by providing relevant, innovative and transformative knowledge, research, extension and production programs and services through progressive enhancement of its human resources capabilities and institutional mechanism.

Automatic Defibrillator

Technical Features:

Easy and Simple to use. With an impressive IP rating of 55 and the defibrillator being built into a carry case design, you can have confidence that no matter where the cardiac arrest has occurred, you can easily be transported to the location of the cardiac arrest and assist you in saving a life.

Key Features:

- Simplistic, graphic interactive interface
- CPR metronome to guide the rescuer with chest compressions
- Emergency services number printed inside
- Bracket at the back of the device to hold a spare set of electrode pads
- Readiness indicator on the top right corner allows you to see if your AED is rescue ready and ready to be used
- Repeat instruction button
- IP55 rating
- Fully automatic Unique Features
- Data Management: Has the capability to store up to 2 hours of intervention data, including 500 events. By using an SD card you can retrieve the event data and can even update the software of the device.
- Repeat Button: A cardiac arrest can be a very stressful situation for the rescuer, whether they're trainer or not and it can be easy to miss an instruction. The repeat button allows the rescuer to have the instruction repeated to them so they can continue on with the life-saving care with confidence.

Our Vision

A leading university in the Philippines recognized for its proactive contribution to Sustainable Development through equitable and inclusive programs and services by 2030.

Our Mission

To develop competitive graduates and empowered community members by providing relevant, innovative and transformative knowledge, research, extension and production programs and services through progressive enhancement of its human resources capabilities and institutional mechanism.

•Fully Automatic: Fully automatic, will deliver the shock without intervention from the user, allowing the rescuer to focus completely on the CPR being delivered.

Technical Parameter:

Battery Standby : 6 years

Manual Override : No

IP Rating I : 55: the AED is protected against limited dust ingress and low pressure water jets from any direction

Electrode Pad Life : 2 years

Automatic: Fully Automatic

Memory : 90 mins

ECG : No

Dimensions : H: 30cm x W: 23cm x D: 9cm

Weight : 2.6kg

AED first aid wall mount cabinet with alarm

Technical Features:

The CE approved AED first aid wall mount cabinet with alarm is designed with round corners which is more safe for people. High quality AED cabinet you can proudly display your AED for all to see and is protected from dirt, dust and possibly theft.

1.Size: H40\*W36\*D20cm

2.Material: Metal steel + Plexiglass in front

3.With alarm system (the alarm will run when someone opens the door)

4.Durable lock with 2 keys

5.Sound alarm strobe light

6.Certificate: CE,ISO,EMC,test report

Our Vision

A leading university in the Philippines recognized for its proactive contribution to Sustainable Development through equitable and inclusive programs and services by 2030.

Our Mission

To develop competitive graduates and empowered community members by providing relevant, innovative and transformative knowledge, research, extension and production programs and services through progressive enhancement of its human resources capabilities and institutional mechanism.
